

SILKSTONE PARISH COUNCIL

RISK MANAGEMENT POLICY

Silkstone Parish Council is committed to identifying and managing risks, using the following procedures and to ensure that risks are maintained at an acceptable level in order to protect Council assets and Taxpayer's precept.

Any action that is felt necessary will be taken by Silkstone Parish Council. The Clerk will review the separate risk assessments document annually with one nominated Councillor. Any new projects/risks will be subject to a risk assessment which will be approved by Parish Council and added to the Risk Assessments file.

The Local Council's Government and Accountability Guidance highlight the following observations regarding risk management.

- Risk management is not just about financial management; it is about setting objectives and achieving them in order to deliver high quality public services.
- The new approach places emphasis on local councils strengthening their own corporate governance arrangements, improving their stewardship of public funds and providing assurance to taxpayers. It makes the point that Members are ultimately responsible for risk management because risk threatens the achievement of policy objectives. Members should, therefore
- Take steps to identify key risks facing the Council
- Evaluate the potential consequences to the Council if an event identified as a risk takes place
- Decide upon appropriate measures to avoid, reduce, or control the risk or its consequences to identify the risks facing a Council, the guidance recommends beginning by grouping the three main types of decisions that have to be taken
 1. Areas where there may be scope to use insurance to help manage risk (Section A)
 2. Areas where there may be scope to work with others to help manage risk (Section B)
 3. Areas where there may be need for self-managed risk (Section C)
